Additional Training: Claude Code in Action, completion badge, Claude Academy (Anthropic), September 2026

PROFESSIONAL EXPERIENCE

Seattle Public Library Esports Program | *Esports Coach* | Seattle, WA September 2024 – Present
- Analyzed player performance metrics and game data to identify winning patterns, utilizing data-driven insights to refine team strategy.
- Managed the team by designing structured practice workflows and using Discord to communicate with 20+ users.
- Facilitated weekly retrospectives to identify friction points in team coordination, mirroring the Agile Sprint process.

PCC Community Markets | *Cashier & Courtesy Clerk* | Seattle, WA August 2024 – July 2025
- Managed high-volume retail operations, processing 30+ transactions per hour with 100% cash-handling accuracy.
- Resolved customer and technical POS issues, maintaining high service standards during peak operational hours.
- Partnered with stocking and management teams to optimize floor layout and inventory replenishment efficiency.

AVELA | *Website Development Intern* | Seattle, WA March 2023 – May 2023
- Engineered a website using HTML/CSS, improving mobile accessibility and increasing potential customer reach.
- Worked directly with the business owner to understand goals and translate them into actionable website features.
- Debugged cross-browser compatibility issues and optimized site navigation, resulting in a seamless user experience (UX) across desktop and mobile.

PROJECTS

Stagely | React, JavaScript, HTML/CSS, Firebase January 2025 – March 2025
- Built a real-time Super Bowl voting and bingo web app for live event engagement, enabling users to cast and track votes across artists and commercials using Firebase Realtime Database.
- Implemented structured read/write data flows to support real-time updates and ensure accurate, synchronized voting across concurrent users.
- Collaborated in a 4-person team using Git and GitHub to design and ship frontend components, routing, and data integration, improving overall development efficiency and coordination.

RoyalClash | Java, Gradle September 2026 – Present
- Built a real time strategy game inspired by Clash Royale in Java (libGDX), featuring an elixir economy, card cycling deck, match timer with overtime, and a rule based AI opponent that people can play against.

LEADERSHIP & PROFESSIONAL DEVELOPMENT

Seattle Parks and Recreation, *Volunteer* May 2022 – March 2024
- Participated in park cleanup and planting initiatives, maintaining safe, clean, and accessible public spaces.
- Collaborated with team members to execute environmental projects efficiently, following organizational guidelines.

English Service Learning (ESL), *Volunteer* January 2023 – April 2023
- Taught English to 5-7 non-native speakers weekly, designing lessons and activities to support language development.
- Coordinated with volunteers to optimize lesson plans and activities, improving program delivery and engagement.
